EDUCATION

Northeastern University (Boston, MA)	Expected May 2027
Master of Science in Data Analytics Engineering	
Relevant Coursework: Foundations Data Analytics Engineering, Computation and Visualization, Data Management for Analytics, Data Mining in Engineering	
National Changhua University of Education (Changhua City, Taiwan)	January 2025
Bachelor of Business Administration	
Relevant Coursework: Big Data Analytics, Statistics, R Programming, Information Management System, Operation Research	

SKILLS

Programming: Python, R
Visualization: Tableau, Matplotlib, Seaborn
Cloud: AWS, Google Cloud, Microsoft Azure
Analytics: Business Analytics, Sports Analytics

WORK EXPERIENCE

Chunghwa Telecom (Taipei, Taiwan)	Jan 2024 – Jun 2024
Cloud Team Intern (Business Analyst)	
- Processed and analyzed 3,000+ AWS customer accounts using Excel and Power BI to evaluate monthly usage trends, traffic patterns, and cost structures. - Conducted advertising campaign performance analysis by evaluating monthly ROI and traffic metrics, providing data-driven recommendations to optimize budget allocation. - Collaborated directly with senior managers and major cloud providers (AWS, Microsoft Azure, Google Cloud) to support strategic partnership initiatives.	

RELEVANT PROJECTS

City Score Analytics Project	Fall 2025
- Collected and integrated 6 public datasets (U.S. Census, Zillow, BLS, Police Crime Data) to construct a ZIP-level livability model for Prince William County. - Cleaned and normalized socioeconomic, housing, crime, and demographic variables; developed a weighted composite scoring model (30% crime, 20% income, etc.) rescaled to a 0–100 index. - Built interactive geospatial dashboard using Plotly and GeoPandas, including choropleth maps, heatmaps, radar charts, and correlation scatter plots.	
Big Data Analytics Project	Fall 2024
- Analyzed 2024 NFL advanced statistics using Python and R to evaluate offensive lineup efficiency and identify highest-impact players. - Conducted comparative team vs. player efficiency analysis to determine key scoring drivers. - Built interactive Power BI dashboards and automated data workflows for dynamic season performance tracking.
